Continuation of Substance of Interview including description of the general nature of what was discussed: The specification lacked proper antecedent basis for the limitations in each of Claims 18 and 19. Accordingly, the specification was amended to change the title and to provide proper antecedent basis for Claims 18 and 19. Claims 12 and 17 were amended to correct minor informalities with the language and/or grammar. The changes do not in anyway affect the scope of the claimed invention. Claims 1-11 and 23-28 were canceled as being directed to an invention non-elected with traverse. All of the above changes were agreed to by the applicant(s) and are noted in the attached Examiner's Amendment, as these changes placed the application in condition for allowance..
